Rotary

Planting update
MARCH 2022

Rotary Forest

What have we achieved?

On the 16th March, Rotarians, Calderdale teams and members of the public met at Whinney Hill Park to plant 800 trees. In total 20 people have planted trees in this second field.

Again a mixture of trees were used, Silver Birch, Downy Birth, Wild Cherry, Common alder, White willow, Crab apple, Hawthorn, Oak, Bird Cherry, Alder, Grey Willow, Rowan, Holly, Elder, Hazel.

This session, along with the 800 previous and over 400 planted earlier by Calderdale brings the number of trees in the two fields to 2000.

Publicity

For this session both Calderdale and Rotary wanted to open planting to local residents. Amy, Calderdale's co-ordinator of volunteers, distributed posters around the site and leaflets through to local houses.

Planting

This time we all got planting straightaway and soon found our rhythm and soon planting was finished!
